Plan

zu einer verzinslichen Prämienanleihe von funfzehn Millionen Thaler, über welche 150,000 verzinsliche, auf den Inhaber lautende Prämienscheine mit laufenden Nummern in 1500 Serien, jede zu 100 Nummern, ausgegeben werden.

Die Prämienanleihe wird mit drei und einem halben Prozent jährlich verzinst. Die Zahlung der Zinsen erfolgt durch die Königliche Staatsschulden-Tilgungskasse am 1. April jeden Jahres postnumerando gegen Aushändigung der betreffenden Zinskupons.

Die Prämienscheine werden durch Ausloosung nach Maaßgabe des umstehenden Ziehungsplanes getilgt. Die Ziehung der Serien sindet am 15. September jeden Jahres, oder, wenn dieser auf einen Sonn= oder Feiertag fällt, am nächsten darauf folgenden Wochentage statt. Sind die zur Verloosung kommenden Prämien unter sich verschieden, so werden die zu den gezogenen Serien gehörigen Nummern am 15. Januar und an den darauf folgenden Tagen des nächsten Jahres ausgeloost. Beide Ziehungen sind öffentlich.

Die ausgelooseten Pramien werden am nachstfolgenden 1. April von der Königlichen Staatsschulden=Tilgungskasse gegen Rückgabe der betreffenden Pramienscheine und der Zinskupons, vom 1. April des vorhergehenden Jahres ab, ausgezahlt. Die besondere Verzinsung der verlooseten Pramienscheine hört mit dem 1. April des Jahres auf, welches dem Tage der Zahlfälligkeit der Pramien vorhergeht, indem die Pramien für Kapital und einjährige Zinsen neben den darin zugleich begriffenen Gewinnen oder Zinszuschlägen Ersatz gewähren.
